

We take your care personally.

Complimentary
Home Safety Inspection and Evaluation

Is your home set up to maximize safety and independence?

Small modifications throughout your house—a grab bar in the shower, a light switch next to the bed, even just reorganizing kitchen cabinets—can go along way to maintaining independence and maximizing safety.

During your complimentary Home Safety Inspection and Evaluation, our trained Care Coordinator will complete a 50-point inspection, utilizing criteria developed by the U.S. Department of Health and

Human Services. Our friendly staff will also provide you with tips and techniques to get started on any modifications your home might need.

Call today to schedule your FREE, no obligation home safety inspection!
